EDUCATION

Computer Engineering Can start Immediately
Bachelor of Engineering degree

Jordan University of Science and Technology

SKILLS

- Web Development - HTML , CSS , JS
- SQL , NoSQL
- Programming - Python , C/C++ , C#,Bash Script
- Verilog/System Verilog
- Team Work , Communication , Time Management , Critical Thinking , Problem Solving , Presentation , Leadership , planning strategy
- Linux
- Docker
- Git

COMPETITIONS

Robotics

Line follower

JoSDC

chip design using verilog

PROFILE

A dedicated student at the Jordan University of Science and Technology pursuing a degree in Computer Engineering. My academic journey has sparked a deep interest in computer architecture, software and Operating System.

I'm working towards a Master's and PhD in Computer Engineering, I'm a self-learning person, and I'm looking for an opportunity to leverage my expertise in computer architecture, and Operating Systems while continuing to grow professionally. My ultimate goal is to make a significant impact on the growth of the company, innovate within my field, and seek a full-time position.

COURSES & CERTIFICATES

leaders program training

IEEE

Problem Solving Training

Leetcode , Hacker rank

introduction to operating system

udacity

digital IC design

master micro

Machine Learning

CS50's Introduction to Artificial Intelligence with Python

Data Structures

Algorithms Abdul Bari

AWS Academy Graduate - AWS Academy Cloud Foundations

Amazon Academy

Introduction to RISC-V (LFD110)

Linux Foundation

LANGUAGES

Arabic

English

Projects

Chip design (pipeline processor in Verilog)

Line follower robot

House prices prediction using neural network

Spam filter using machine learning algorithm

facebook CLI using c#
